IDENTIA TRONICS®
People and Products That Identify

SOFTWARE	USES & BENEFITS			
Task Oriented And Friendly User Interface	INCREASE FACILITY SECURITY <ul style="list-style-type: none"> • Prevent Unauthorized Entry • Audit Door Access • Schedule Times Of Entry • Lock Doors During Holidays • Disable Badges And Pins Without The Need • To Change Locks & Keys 			
Convenient Software Design Interacts With One Screen				
Up To 100 Unique Access Schedules				
24/7 Scheduling				
Convenient Weekly and Vacation Scheduling				
Define Yearly Holidays In Initial Set Up, Easily Changed At Any Time				
Convenient Door Auto-Unlock Scheduling				
Notify User Of Each Doors Status				
DOOR GROUPING FEATURES		BETTER EFFICIENCY & CONVENIENCE <ul style="list-style-type: none"> • Automatically Lock & Unlock Doors • According To Schedule • Lock All Doors With Your Mouse • Enable and Disable Temporary Worker • Temporary Worker Controlled Access 		
Notifications (Ajar/Forced Open)				
Used for Easy Assignment				
Simplified System Management	FAIL SAFE DESIGN <ul style="list-style-type: none"> • No Single Point Of Failure • System Redundancy • Operates on Battery Backup 			
MODULAR DESIGN SOFTWARE				
Manager Module: Used to Enroll People and Configure System				
Server Module: Used to Communicate with Controllers				
Monitor Module: Used for Notification of Important Events				
Network Capabilities:				
- Install and Share Modules Across a Network				
- Allows System Database on Network Server				
COMPREHENSIVE SECURITY SOFTWARE				
Password Protected Operator Accounts				
Define Exact Privileges for Each Operators				
Audit Activity of System Operators				
VALUABLE SYSTEM ACTIVITY REPORTS	SMALL BUSINESS <ul style="list-style-type: none"> • Customer Entrance Unlock At Set Time • Door Open Alarm • Room Security (Inventory, IT, Tool Shed, etc.) 			
Flexible System Activity Definition				
Ability To View All Historical Data				
Powerful Report Filter To Drill Down On Data Needed				
Powerful Search Feature To Find Only The Data You Need				
Ability To Mine Data to Discover Activity Patterns				
EMPLOYEE IMPORT MODULE				
Import Employee Info From And Onto The System				
HARDWARE		CONDOMINIUM AND APARTMENT COMPLEX <ul style="list-style-type: none"> • Use In All Public Doors And Gates • No Need To Pay For Expensive Custom Keys • No Need To Collect Keys From • People That Leave 		
Up to 32 Doors				
Convenient Network Like Cabling Installation				
Hardware Fail Safe/Redundant Design				
Each Door Controlled Independently For Fail Safe Design				
Hardware Communication Fail Safe Stand Alone Design				
Reader Technologies: Barcode, Magnetic Stripe, Proximity Readers, or Keypads				
Built In Local Audible Alarm				
Hardware Operates Independently From Software For Storing People and Events				
Convenient Power Options				
SYSTEM REQUIREMENTS	CLUBS & ASSOCIATIONS <ul style="list-style-type: none"> • Control Access To Services And Facility Area Based On Membership Type • Restrict Entry On Nonservice Days. 			
Microsoft Windows 98, 2000, Millennium, XP and NT 4.0				
Minimum PC Configuration: Pentium-300 with 128 MB RAM and 1 available serial port
